

UWAS Web Site Inauguration

The soft launch of UWAS' Web is a milestone which signifies the ICT readiness of the University Women's Association (Singapore). Members, sponsors and friends of UWAS are pleased to witness the frog-leap from the print University Women's Web (newsletter) to the internet UWAS Web. The success of setting up this unique website at a minimum cost is an outstanding example of teamwork and network. I would like to acknowledge the selfless contributions of our members and associates:

First and foremost, we deeply appreciate Ng Seok Hui's voluntary service in designing and building the website. We also thank Yeo Gee Kin for sharing her expertise in ICT, Lim Kim Hoon for providing office facilities when the website team met in October and November 2003.

Last but not least, a big thank you to President Rosy Nakhoda and all the Exco members for their unfailing support and contributions throughout the planning and production stages of this website. A special note of thanks goes to Pamela Chng (contact through SCWO) for her helpful advice in web design and hosting at the start of our planning stage in September last year.

Viewers / Visitors of the UWAS Web are welcome to give us feedback and suggestions. This is a very active and interactive website, so please treat it as work-in-progress and move on together.

Lui Hah Wah Elena

Publication Chair 2002-2004
